

DP-601 : Implement a Lakehouse with Microsoft Fabric

Exercise 3 : Create and use Dataflows (Gen2) in Microsoft Fabric

- Create a workspace
- Create a lakehouse
- Create a Dataflow (Gen2) to ingest data
- Add a dataflow to a pipeline
- Add data destination for Dataflow

DP-601 : Implement a Lakehouse with Microsoft Fabric

Workspace type ⓘ

What a user can do in a workspace depends on the individual user license(s) assigned to that user and the workspace type. [Learn more](#) 🔗

Power BI only workspace types

Power BI workspaces only support the use of Power BI capabilities.
